

ATTENTION! THIS IS VERY IMPORTANT!

If you don't have a .NET FRAMEWORK 4.0 and .NET FRAMEWORK 4.0 Client Profile don't worry. Follow this guide at point 2 (INSTALLATION GUIDE).

The .NET FRAMEWORK 4.0 will install automatically (Internet connection required!)

1. SYSTEM REQUIREMENT:

- .NET FRAMEWORK 4.0
- .NET FRAMEWORK 4.0 Client Profile

2. INSTALLATION GUIDE:

- extract the folder LS_Pathcer_install [ENG].zip where you want
- open the new folder unzipped
- run setup.exe

(IF YOU DON'T HAVE .NET Framework 4.0 E .NET Framework 4. ClientProfile:

- it will install automatically (Internet connetction required
- MAY BE that computer could reboot after the installation)
- the LS 2011 Patcher will be installed
- a new icon of LS 2011 will show on your desktop

"ENJOY"

:D
